

National Drug List

Medication alternatives

The National Drug List is a list of prescription medications approved by the U.S. Food and Drug Administration (FDA). We've reviewed these drugs through our Pharmacy and Therapeutics (P&T) Process, which considers a drug's:

- Effectiveness
- Safety
- Similarity to other drugs within a therapeutic class
- Affordability

The National Drug List is an open drug list or formulary, with some closed drug classes. The list includes a broad range of drug choices – including 98% of all prescription medications.* If a medication is not on the list, there are other high-quality, cost-effective choices, called preferred alternatives, that are.

Medications not included on the National Drug List are shown on the chart included here, along with their preferred alternatives that are on the list. Please note, exclusions and limitations may apply. For details about what's covered and what's not, it's best to check the *Certificate/Evidence of Coverage or Summary Plan Description*.

To view and search the complete National Drug List, members should log in at anthem.com/ca and choose **Prescription Benefits**. Information on dosage/strength options and any restrictions such as quantity limits, prior authorization or step therapy requirements is available. Members can also call Member Services at the number on their member ID card or visit anthem.com/ca/pharmacyinformation.

What if a medication isn't on the National Drug List?

There may be times when a member's drug isn't on the National Drug List. If the covered alternative options are not right for the member, doctors can submit a request for an exception. This process, called prior authorization, requires doctors to call the Member Services number on the member's ID card or go to anthem.com/ca/pharmacyinformation to download and submit the prior authorization form. Doctors can also submit prior authorizations electronically, which requires less processing time and possible real-time approval so members can fill their prescriptions without delay.

For the most up-to-date information, members should log in at anthem.com/ca and choose **Prescription Benefits**.

Drug class	Medications not on the National Drug List	Preferred alternatives ¹
Allergic Reaction Treatment	AdrenaClick, Auvi-Q, Epinephrine auto-injector (Impax and Lineage), EpiPen, EpiPen JR	Epinephrine auto-injector (Authorized generic EpiPen from Mylan)
Dermatologic – oral anti-infectives	Acticlate, Adoxa, Doryx, Doryx MPC, Doxycycline IR-DR 40mg Capsule, Minocin, Monodox, Vibramycin 50mg/5ml Syrup, Solodyn, Ximino ER	doxycycline hyclate, doxycycline monohydrate (immediate release), doxycycline 25mg/5ml suspension, minocycline, Oracea
Diabetes - Biguanides	Glumetza (brand and generic)	metformin ER (generic Glucophage XR)
Diabetes – DPP4s	Alogliptin, Alogliptin/metformin, Kazano, Kombiglyze XR, Nesina, Onglyza	Januvia, Janumet/XR, Tradjenta, Jentadueto
Diabetes – GLP1s	Adlyxin, Tanzeum	Byetta, Bydureon/Pen, Ozempic, Trulicity, Victoza
Diabetes – long-acting insulin	Basaglar, Tresiba	Lantus, Levemir, Toujeo
Diabetes – rapid-acting insulin	Admelog, Apidra, Fiasp, Novolin, Novolog	Humulin, Humalog
